

**Allia Luxembourg SA** is an independent broker established in Luxembourg since 1996. We focus on the local servicing and respect of banking secrecy.

Our company offers a broad range of customized insurance coverages and provides financial risk insurance and advice to the local financial industry.

Our insurance products are continually improved and up-dated to reflect changes and evolution in the local financial industry and the international insurance market.

As a result, we are able to provide the security of cover against a wide range of financial risks including both corporate and personal liability :

We have arranged, with Allianz, for the ILA members, a tailor made insurance policy covering the Directors' Liability. The specificity of this policy is that the policyholder and the insured are the physical persons handling mandates. This has been done taking into consideration local regulation and requirements.

Our strong in-house expertise achieves excellent results in scope of coverage and pricing. For the above mentioned product, we propose two options:

	<b>Sum insured</b>	<b>Annual premium before tax</b>
<b>Option 1</b>	€ 750.000	€ 2.000
<b>Option 2</b>	€ 1.000.000	€ 3.500

**without any limitation in the number of mandates. No deductible is applicable.**

You can at any time contact our multi-lingual team (French, Dutch, English, Spanish, Italian, German) in Luxembourg in order to assist you in arranging your insurance program and providing you with all relevant explanation in respect of your coverage.
